

DISCOCROP & DISCOMAX

Discocrop and **Discomax** compact disc cultivators from **Techmagri** offer an economical solution to land preparation, either for primary cultivation of stubbles, or secondary cultivation when preparing seedbeds. Two disc sizes are available at 460 and 660 mm diameters with a choice of rear rollers. Each disc unit is individually mounted on a rubber cushioned arm to protect against impact with large stones or rocks.

DISCOCROP 460

Discocrop 460 models are ideal for shallow cultivation of stubbles after harvest to enhance straw breakdown and encourage weed and volunteer seeds to germinate. 4.5 and 6.0 metre models feature a levelling finger bar between the discs and the rear roller. Semi-mounted models have the option of a rear 3 point hitch for the attachment of a seed drill.

DISCOCROP DCC 460				ROLLERS	
				Tube Ø500	Masterpack Ø500
Model	Type	No of Discs	HP	Weight	Weight
DCC300P	3.0m Mounted	24	700-110	1060kg	1450kg
DCC400P	4.0m Mounted	32	110-140	1400kg	1920kg
DCC450HP	4.5m Mounted/Folding	36	120-170	1860kg	2450kg
DCC600HP	6.0m Mounted/Folding	48	150-200	2480kg	3260kg
DCC600HSP	6.0m Semi-mounted/Folding	48	140-200	3090kg	3870kg

DISCOMAX

Discomax 660 is a heavier duty version with larger discs for tougher conditions and deeper working depths. All models feature 2 rows of discs and an levelling comb harrow, with a choice of rollers. DCM 660 models also have the option of a larger 700mm diameter Mastertass V profile rubber roller. As with the DCC 460, semi-mounted models have the option of a rear 3 point hitch for the attachment of a seed drill.

660mm diameter depths.

Tube Roller

Mastertass

DISCOMAX DCM 660				ROLLERS	
				Tube Ø600	Mastertass Ø700
Model	Type	No of Discs	HP	Weight	Weight
DCM300P	3.0m Mounted	24	110-120	1640kg	2075kg
DCM400P	4.0m Mounted	32	130-160	2110kg	2690kg
DCM450HP	4.5m Mounted/Folding	36	140-190	2800kg	3450kg
DCM450HSP	4.5m Semi-mounted/Folding	36	130-190	3500kg	4100kg
DCM600HSP	6.0m Semi-mounted/Folding	48	160-220	4600kg	5470kg

Semi-mounted models are available with a rear 3 point linkage for attaching seed drills
